Subject: Form Based Code comment

Thank you for considering comments from the residents before moving forward with a Form Based Code.

Please add me to the pile of comments from people who grew up in Chappaqua, and moved back to raise families here. Yes, for the schools and small town. In the 80's/90's I remember a vibrant downtown with a lot less people to support it.

Consider this photo of a letter I received last week. We need more to do in Chappaqua, not more people.

# Thank You for Your Support!

**CHAPPAQUA SCHOOL FOUNDATION**

Every School • Every Grade • Every Student

On Tuesday evening, more than 200 of you patiently waited in line as over 500 hot dogs and burgers were flipped and hundreds of scoops were served, proving that the space between us can be filled with laughter, joy and community spirit in support of our schools.

We are so grateful to our community and would like to especially thank Dr. Christine Ackerman, David Hayes and the CCSD for allowing us to host this event. We hope to hold it again in the future with more trucks and much shorter lines!
