Sabrina, Ivy,

Thank you for this mornings session. I am 100% for the rezoning and development, and as a resident and a member of our Chamber of Commerce and Diversity Committee, I believe this plan will bring new life, new residents, new opportunities and additional tax revenues to our town..

Urban planning is complex and requires logistics.

If you need any support and help, please let me know. I also copy Andrew Wixom, he was advising with previous town board, he is an Architech and developer, with international experience in urban planning, and he will be happy to help as well.

Natalia
914 5480807

With gratitude,

Natalia Wixom
